

Tim P. from Haubstadt, Indiana

Grandpa's Gun, I will always remember Grandpa's BB gun. It was a Daisy Model 25. Grandpa got it to keep the birds down around the farm and the coolest thing was when we visited him and Grandma, he had no problem letting us keep the bird population down. The first time he let us use it he went over the proper safety handling with me and my brother. He then showed us the correct way of aiming and shooting the gun. I was so thrilled when I hit my target the very first time I shot it. I felt so big that Grandpa trusted me with this BB gun. It was a very accurate and easy to use gun. I will always remember this and I hope to instill the same values in my sons.
